Kuo, F.

Dr. Franklin F. Kuo
University of Hawaii
2540 Dole Street
Honolulu, Hawaii 96822

Dear Dr. Kuo:

Per your application and a decision of the SUMEX-AIM Executive Committee, we would like to extend to you the availability of SUMEX for your project "Distributed Data-Base System for Chronic Disease". Your current status as a user will be as a project for the period of from this date to 31 August 1975, and contingent upon the funding of your grant. In anticipation of this deadline, we would appreciate your keeping us informed of the status of your grant and the funding possibilities. The terms of your access for this interval will be as requested in your letter of 12/6/74, namely: Connect time of ≤ 15 hours per week; cpu time 40 minutes per week; program size, 50 K maximum.

Your use of SUMEX is based on the SUMEX connection to the ARPA network. We have just completed final stages of testing the ARPANET connection. We are Host Octal 56. Our name is SUMEX-AIM.

Your project has been set up on SUMEX with the appropriate account as follows:

PROJECT	Distributed Data Base System for Chronic Disease
ACCOUNTS:	Data Base System (as this is the only account at present, it is also your default account)
USERS:	Kuo, Dr. (additional users can be established, please refer to the attached procedures)
PASSWORD:	XXX (This can be changed by using the PASSWORD COMMAND)

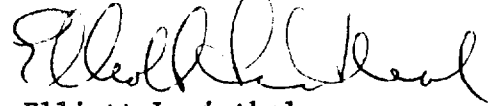

Also enclosed is a listing of the documentation that is currently available on the SUMEX system. As new programs are made available, you will be sent a copy of the appropriate document and an abstract. This documentation is being sent under separate cover.

April 7, 1975

We would like to have a one page abstract and your choice for an acronym.

Should you have any questions, please feel free to contact me either on general procedural matters or Mr. Rindfleisch on technical issues.

Very truly yours,

A handwritten signature in dark ink, appearing to read 'Elliott Levinthal', written in a cursive style.
